EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
1. Duplicated keywords (same as the paper title) must be re-chosen. 2. All equations listed in the text should be numbered. 3. Every variables in the equations must be defined and only once in the entire text. 4. All acronym names must be defined when first appear. What is H, GCV, PCV (the most important results)? Please define. 5. Is K the same as k? 6. Descriptive and discussions on both table results are extremely lacking. 7. No caption has been provided for the second table. In fact, all the tables must be referred to in the text. 8. Comparisons with other, previous results do not necessary support and justify the validity and accuracy of the current study results. 9. Many English syntax and language errors have been detected.	1. Didn't used duplicate key words 2. according to reviewer comment done all the corrections and the same draft copy and final copy attached to editorial committee 3. variables defined once, the repeated one deleted 4. Acronym defined and abbreviated 5. K only mentioned in equation that to in upper case. Author didn't mentioned small case k 6. tables are modified according to reviewers comment 7. table tile provided now 8. according to expert committee the literature support is mandatory to justify the research outcomes hence, authors are gone through extensive literature and same compared with our outcome 9. The grammar correction was done by language expert and the same revised and submitted to you .
