(If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>A very well-written literature review analysing the chemical composition and nutritional properties of the main millet varieties. Scientific evidence was presented, based on the available scientific literature, on the potential health benefits of millet consumption. This included health areas related to diabetes, gastrointestinal diseases or anaemia. The authors also highlighted those areas that need further exploration and those that would focus on investigating the bioavailability, processing and incorporation of millet into various foods to take full advantage of its valuable properties.</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes. Only in the 'References' section, the names of scientific journals should be written in capital letters.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	Yes	
<p>Optional/General comments</p>	Latin millet names mentioned in the 'Introduction' section should be in italics.
