The paper is accepted with minor correction.

Comments

The authors mentioned "Fear of side effects was the primary reason for not using family planning services (65.63%)". Please, add some side effects to these methods in section of discussion, including that IUD.

You can add: Some side effects including bleeding and infections from IUD use.

Hegazy RA, Hegazy AA, Etman WM. Tubo-ovarian actinomycosis in perimenopausal woman with neglected intrauterine device: A case report and review of literature. J Medical Case Repo. 2021;3(4):1-5.

There is also no need to refer tables within the discussion section. Please delete it.
