Some remarks: -the abstract is constructed poorly and without logic -the construction of the phrase and the use of the English language is deficient - most of the information needs additional bibliographic references - regarding the images used, what is their source, do they belong to the authors, do they have the right to use them? The article has serious conceptual problems, structure and correctness of the English language. There may also be copyright issues with the images you use.</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	NO	
<p><b>Optional/General</b> comments</p>
