

SDI EDITORIAL COMMENTS FORM

EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>1. Add the country "India" to the paper title.</p> <p>2. Use "and" instead of "&" throughout the entire text.</p> <p>3. "Documentation" is very poor choice of word for a research paper. Why not delete it!</p> <p>4. No sub-heading is needed in the abstract.</p> <p>5. Use only one form of reference citation format in the text. Please get rid of the "[1], [2], ..." format.</p> <p>6. All the figures repeat the same data already shown in the tables. Again, delete them and just keep all the tables. Besides, the figures are extremely difficult to interpret the intended results.</p> <p>7. The methodology descriptive is too brief. More detail must be given to justify the validity and accuracy of the gathered information and data.</p> <p>8. All the recommendations must be supported by relevant literature and previous studies to convince the readers.</p>	<p>1. Suggestion incorporated.</p> <p>2. Suggestion incorporated.</p> <p>3. Instead of Documentation, To document is incorporated.</p> <p>4. All sub-headings are removed from the abstract.</p> <p>5. Suggestion incorporated and all the references are cited as per the reviewer's suggestions.</p> <p>6. Suggestion incorporated and all figures are deleted now.</p> <p>7. The survey was conducted by using pre-designed questioners that is mentioned in various tables under results section. In order to avoid repetition, it is not given in materials and methods.</p> <p>8. Suggestion incorporated.</p>
