

Editor's Comment:

This manuscript is fairly well written. However, the following minor corrections are needed prior to publication acceptance:

1. Missing formula for evaporation volume (loss).
2. Add a label for the second column of Table 2, not just "km".
3. Take care of all the superscripts, such as m^2 , m^3 .
4. Unify the use of "L", "km" and "m".
5. In Table 4 and Figure 6, check all the positions for "," for all the thousand numbers.
6. Figure 1 has a typing error in the caption, "Nad".
7. Some capitalization errors have been detected. A throughout proof-check is needed.
8. Why not add the country name in the paper title, "India".
