

Editor's Comment:

After careful reading and review,

1) I think this article is very well written and can be combined with clinical practice to analyze **Foreign body aspiration in the pediatric population in Kuwait: experience of 901 cases**

2) Format the article according to the journal guideline.

3) Looking for writing norms closely combined with clinical practice,

4) the statistical methods are correct, the research data are reliable,

5)and provide valuable documents for clinical practice,

6)but references is 18,also morwe is old so plse add 1-3 newest

7) table is 5 ,It's too much. It should be reduced by 3 to 4.

8) In small modifications. can consider sending publishing after modification

after Minor REVISION could beconside publishing.
