EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>The paper needs to be rewritten in several sections:</p> <ol style="list-style-type: none">1. Introduction: Description of signs and symptoms are unnecessary. Only describe the current epidemiology and particular regional aspects if necessary.2. Split of Results and discussion items is mandatory. One crucial situation not well clarified is the prevalence of diabetes in the studied population.3. Please fix the current tables. One of them includes the distribution of proteinuria according to age, and another one with the correlations informed as r with values from -1 to 1.4. In Conclusions only include the most important findings of the study without redundant information previously described.5. Your manuscript is checked by Turnitin Software before publication. It is giving 57%. text similarity index. You are hereby kindly requested to reduce the text similarity index below 20%	<ol style="list-style-type: none">1. Done2. Done3. Done4. Done5. I try to reduce the stimulatory in my manuscript but some word was widely used in scientific writing it cannot concenter as a plagiarism (ex. Hypertension , descriptive cross sectional , analysis , significant ,relation ect.)
