

## Review Form 1.6

Journal Name:	<a href="#">International Journal of Environment and Climate Change</a>
Manuscript Number:	Ms_IJECC_84256
Title of the Manuscript:	Variability and selection indices in two F2 populations of brinjal from intra-specific hybridization
Type of the Article	Research article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<b>Selection of topic for the study of Variability and selection indices in two F2 populations of brinjal from intra-specific hybridization is good enough in providing basic genetic information for the breeders.</b> 1. Kindly provide information about the pedigree of parents. 2. Kindly provide information about mean data of selected individuals in F2 population so that it will be useful in comparison of mean yield in F3 generation.	
<b>Minor</b> REVISION comments	What is the potentiality of F2 population over its respective F1 hybrids?	
<b>Optional/General</b> comments	Importance of nutritional value of manipur local parents in improvement of present day brinjal cultivars.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
