

Review Form 1.6

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_90046
Title of the Manuscript:	Effect of different plant growth regulators for in vitro regeneration in strawberry
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none">- The manuscript is scientifically robust and technically sound.- Prefer that to be the title of manuscript is " Effect of different plant growth regulators on <i>vitro</i> regeneration in varieties of strawberry".- The references need to modernite using researches during the period of 2017 till 2022 because the idea is very good for improving the quality of strawberry seedlings.	
Minor REVISION comments	<ul style="list-style-type: none">- The title of tables prefers on the front of tables and the title of figures at the end of figures.- Prefer that to be writing the title of tables using of "Effect of different combinations and concentrations of growth regulators on Shoot number for the strawberry varieties after 45 days of inoculation".	
Optional/General comments	<ul style="list-style-type: none">- The numbers which be finding in tables must be moderate in the cell and which it had repaired using by red colour.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
