PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>In the introduction section: You should specify in which extend how this agricultural technology is used in the context of study area. Moreover you should explain why it is so important to carry out your study.</p> <p>In the material and method section: For the subsection 2.1, 2.2, ... you should provide the reference of each protocol, since these are not your own you have adapted them for the purpose of your study. It's better to make Table 1 more readable for instance through textual presentation by describing each combination. Notice that the figures within the table are not meaningful</p> <p>Result an discussion section: You should remove the subsection 3.1 in vitro regeneration from your paper because it doesn't have any link with your result</p>	
Minor REVISION comments	Result and discussion: You should discuss the results provided in Table 3 to Table 8 instead of a simple presentation. What does it mean; why, what previous findings show about that?	
Optional/General comments	Conclusion: What is the perspective of your study
