

Editor's Comment:

The following suggestions may be helpful to upgrade the manuscript to publication acceptance level:

1. Add country name (India) to the paper title.
 2. The abstract must be rewritten to include the purpose, goal, method, result findings and practical implications of this study.
 3. Duplicated (same as the paper title) keywords must be re-chosen (no abbreviations are allowed).
 4. Typing error for "Busses". Should it be "buses"?
 5. Unify the use of "nh" and NH".
 6. In Table 1, what is the difference between "#" and "Numbers" in the table column.
 7. The reference list must be arranged alphabetically according to the last of the first author.
8. Many spacing and English language errors have been detected. A thorough proof-check and English language check is desperately needed.
