

Review Form 1.6

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_90635
Title of the Manuscript:	Influence of varied plant densities and nitrogen doses on growth and yield of Bt cotton (<i>Gossypium hirsutum</i> L.) under high density planting system
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1. Line 7&56: Add PJTSAU (University Name) 2. Insert graphs for Growth parameters, Yield attributing characters, Seed cotton yield (kg ha ⁻¹)	
Minor REVISION comments	1. Abstracts need to be improved (add the need of study) 2. Include images and figures of experimental plots 3. Line 59: you have mentioned cropping season, mention months 4. Line 66: Elaborate DAS once 5. Line 76: it is plant ⁻¹ or per plant kindly check 6. Insert graphs for Growth parameters, Yield attributing characters, Seed cotton yield (kg ha ⁻¹) 7. Try to elaborate more in conclusion part with future scope	
Optional/General comments	Try to Insert data collected table in methodology. Try to insert Location GIS map	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
