PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	The laboratory findings would be neater if presented as a table. A little bit of detail about the types of amyloidosis would be helpful here.	
Optional/General comments	Could you comment on why a trans cervical route for biopsy was done in place of the traditional trans oral route for base of tongue tumours? The final paragraph which mentions the overall recommendations should ideally have a reference about where the recommendations are from, such as the National Amyloidosis Centre (NAC) guidelines or the International Society of Amyloidosis guidelines	

PART 2:
