PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Fertilizers play a key role in the production of both quantity and quality. of tomato. Tomato plants should be providing with adequate fertilizer, N itrogen, phosphorus and potassium are the main elements which affect growth, yield and quality of tomato plants (Olaniyi 2008) Page1 The position of the period is wrong and N is lowerletter	
Minor REVISION comments	I think author selected references are relatively old.	
Optional/General comments	It is difficult to understand which fertilizer is effective after all because there are too many individual parameter evaluations. authors should summarize own thoughts on how to think comprehensively.
