General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijtdh.com/index.php/IJTDH/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<ol style="list-style-type: none">1. It is stated that table no.3 gives details on transmission routes like surgical exposure, dental extraction etc., I could not find such details. This may be kindly corrected.2. There is conflicting statement that antischistosomial therapy is less prevalent in this study which is not discussed satisfactorily. This needs authors attention.3. Abbreviation with their expansion may be mentioned.4. The discussion on HCC in this topic needs justification.5. The relevance of reference number 8 and 9 is doubtful. So also the citation at few instances needs to be appropriately corrected.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
