

Editor's Comment:

The manuscript entitled "SELF-REPORTED SLEEP DISORDERS AND ASSOCIATED FACTORS AMONG UNDERGRADUATE STUDENTS IN A NIGERIAN TERTIARY INSTITUTION" is a well designed and conducted study. It can be **accepted for publication** in the International Journal of TROPICAL DISEASE & HEALTH, provided that the arrangements I have mentioned below are made:

1-In Table 1, ">24" should be written instead of "<25" in the age groups row.

2-In Table 1, the percentage of the <20 age group should be written as 19.5%.

3-Since the data of Table IV is presented in the text, it is unnecessary and should be deleted.

4-The third and last paragraph of the Discussion section needs to be supported by scientific references. Otherwise, they will be considered as unsupported claims of the author in a scientific study.
