

## Review Form 1.6

Journal Name:	<a href="#">International Journal of Plant &amp; Soil Science</a>
Manuscript Number:	Ms_IJPSS_87761
Title of the Manuscript:	EFFECT OF THE STORAGE PERIOD ON THE PHYSIOLOGICAL QUALITY OF CAGAITA SEEDS ( <i>Eugenia dysenterica</i> DC.)
Type of the Article	Original Research Article

### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy> )

### **PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The research is relevant because it deals with the conservation of recalcitrant seeds. Thus, the conservation and storage of seeds is a safe and economical way of conserving the genetic diversity of plant species native to the cerrado, such as cagaita, because in addition to representing a strategy to meet the continuous demand for seedlings for commercial purposes, reforestation, and recovery of degraded areas. The article is original. The text is well founded, the methodology is adequate to the proposed objectives, without corrections. The introduction is well written and very clear, along with its objectives. The methodology is adequate, and the results are all correct. The bibliography is updated and refers to authors with experience in the area. Check grammar of the article	-----
<b>Minor</b> REVISION comments	Insert the following references to upgrade your study Silva LA, Sales JD, Santos HO, Martins JM, Costa VH, Silva FG. Physiological performance of cagaita seeds ( <i>Eugenia dysenterica</i> DC.) subjected to drying. <i>Semina Ci. agr.</i> 2017:19-34. de Morais Cardoso L, Martino HS, Moreira AV, Ribeiro SM, Pinheiro-Sant'Ana HM. Cagaita ( <i>Eugenia dysenterica</i> DC.) of the Cerrado of Minas Gerais, Brazil: Physical and chemical characterization, carotenoids and vitamins. <i>Food Research International</i> . 2011 Aug 1;44(7):2151-4.	-----
<b>Optional/General</b> comments		-----

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
