

**SDI Review Form 1.6**

Journal Name:	Journal of Energy Research and Reviews
Manuscript Number:	Ms_JENRR_86862
Title of the Manuscript:	Thermal Performance Analysis of a Linear Fresnel Concentrating Solar Collector
Type of the Article	

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<http://www.sciencedomain.org/journal/10/editorial-policy> )

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	<p>Hope you are doing well, I reviewed manuscript carefully and in my view the results of this manuscript is valuable. This manuscript is acceptable after minor revision.</p> <p>Comment No. 1: This paper should be edited grammatically. Comment No. 2: It should be better that manuscript has a nomenclature. Comment No. 3: Some important related papers must be included:</p> <ul style="list-style-type: none"> <li>- Heat transfer and fluid flow of blood with nanoparticles through porous vessels in a magnetic field: A quasi-one-dimensional analytical approach, Mathematical Biosciences, Vol 283, pp. 38-47, 2017.</li> <li>- Analytical study of micropolar fluid flow and heat transfer in a channel with permeable walls, Journal of Molecular Liquids, 204, 198–204, 2015.</li> <li>- Scrutiny of underdeveloped nanofluid MHD flow and heat conduction in a channel with porous walls, International journal of Case Studies in Thermal Engineering, 4,2014.</li> <li>- Study of heat transfer and flow of nanofluid in permeable channel in the presence of magnetic field, Propulsion and Power Research, Volume 4, Issue 1, March 2015, Pages 5062.</li> <li>- Study of heat transfer in nanofluid MHD flow in a channel with Permeable walls, begellhouse, Heat Transfer Research, 48(3), 221–238, 2017.</li> <li>- Nanofluid thin film flow and heat transfer over an unsteady stretching elastic sheet by LSM, Journal of mechanical science and technology 32 (1), 177-183, 2018.</li> </ul> <p>The paper is acceptable, but only after the above comments are suitably addressed. I shall proofread the final version.</p>	
<b>Optional/General</b> comments		

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i><b>(If yes, Kindly please write down the ethical issues here in details)</b></i>
