PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Interesting paper looking at the demographics of head injury in Indonesia. Some key points are missing and should be discussed. First, discuss the role of surgical verse conservative management for epidural hematomas PMID: 29736238. Second, discuss how mild and moderate TBIs can predispose to neurodegeneration and should be monitored PMID: 23335911. Finally, discuss appropriate management strategy for acute subdural hematomas PMID: 27857999. If the above concepts and all suggested references included, the paper could be of interest to the readership.	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
