PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Perforated appendicitis is an intra-operative finding, it is important for early detection clinically to avoid the associated complex sequelae.</p> <p>The article requires consideration in a grammatical sense, please adhere to the use of medical language</p> <p>Could the authors kindly highlight what their study adds to the pre-existing knowledge base?</p> <p>The conclusion is rather limited- kindly expand</p> <p>What were the limitations of the study? - this needs to be included</p> <p>Was there pre-operative imaging used in any of these cases?</p> <p>In the discussion section, it may be useful to tabulate the results so that the reader can follow this easily.</p>	
Minor REVISION comments		
Optional/General comments	Interesting study, well done to the authors. There needs to be some further work before this can be considered for publication. All the best.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
