Manuscript Number:	Ms_JPRI_89850
Title of the Manuscript:	Occurrence of Perforated Appendicitis in Patients Subjected to Appendectomy for Acute Appendicitis
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journaljpri.com/index.php/JPRI/editorial-policy>

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	After having a thorough reading of the paper i came to conclusion that albeit author has tried to conduct good clinical study on occurrence of perforated appendicitis in human population but the study does not reflect its significance in diagnosis or treatment of the said disease/ it is simply a survey on prevalence of perforated appendicitis, If other parameters like implications etc are studied simultaneously, the manuscript will be more informative	
Minor REVISION comments	Language of the paper not upto the mark. There are lot of grammatical mistakes and paper not designed properly.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
