PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	My opinion is that the manuscript is in serious trouble: The title is unclear and the abstract needs to be improved, it is not consistent with the manuscript. It lacks a specific format; it has no original research article format. There is no Introduction, Material and Method, Results and Discussion clearly written throughout the text. I suggest rewriting the text complete in a coherent format. Throughout the text there are several formatting errors, errors in citations, several words in bold and red that has no meaning and makes the text confusing. The English of the text needs to be revised, it's all very confusing, as the manuscript lacks a format. The manuscript references are old and few. I suggest insert references from 2017 to now, and use more references to make the text robust.
