Manuscript Number:	Ms_SAJRM_90324
Title of the Manuscript:	Distribution Rate of Chlamydial Infection According to Demographic Factors among Women Attending Clinics in Zaria Metropolis, Kaduna State, Nigeria
Type of the Article	Basic research

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journalsajrm.com/index.php/SAJRM/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The summary is too short, data is missing, it should be improved. Do not forget to put each of the sections (brief description, methodology is materials and method, not just how it was done, results and brief conclusion)	
<b>Minor</b> REVISION comments	I could expand the discussion, it is very poor	
<b>Optional/General</b> comments	To be a research article, the bibliography they consulted is very poor, they could perhaps add an image of the instrument used for the survey or some laboratory image, perhaps or some graph of the factors, it would also be more visual for the reader	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
