### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journalacri.com/index.php/ACRI/editorial-policy>

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>The background of the abstract should be updated by including the aim of this paper. And this must be in line with the four lines of the introduction so as to be clear with the objective of this survey (see comments in the reviewed documents attached)</p> <p>The conclusion of the abstract should be revised to summarily capture the conclusion of the article.</p> <p>The author should list the other on-going intervention beside the CMP in the introduction (see comments in the reviewed document)</p> <p>Table 1 the 2<sup>nd</sup> 95 trackers has to be revised with some corrections for the variables of PLHIV on ART and right definition of Lost to follow up (LTFU) variables. See comments in the reviewed document</p>	
<b>Minor</b> REVISION comments	<p>The author utilizes a lot of PEPFAR program specific terminology which may not be known to all reader. Therefore, the author should define each PEPFAR indicator in the text between brackets.</p> <p>The author should review some typo highlighted yellow and the grammatical errors mostly concerning the tense that is used in some section of the text.</p>	
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
