|-------------------------------------|---|---|
| Compulsory REVISION comments | Very interesting topic to be publish, however need some revision to be done; <ol style="list-style-type: none">1. Does the materials used only the BGN seed only? Since in the research also doing many analysis, supposedly the materials for analysis should be mentioned here include the materials supplier should be mentioned2. In the result and discussion, please add some introduction paragraph before showing the results.3. To many picture, if it is possible please be reduce to make the paper clearer4. The R2 was low, is there any validation for the equation generated from the software. How much difference between the theoretical value compared to the experiment value? Please do a validation to make sure that the equation can be use to predict the best result. | |
| Minor REVISION comments | | |
| Optional/General comments | | |
