

Review Form 1.6

Journal Name:	Asian Journal of Advances in Agricultural Research
Manuscript Number:	Ms_AJAAR_88871
Title of the Manuscript:	The effect of burning crop residues and Soils drowned in water on the population of Thiobacillus spp. bacterial and Trichoderma spp. fungus in fields
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajaar.com/index.php/AJAAR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The idea of this research is quite good, but the manuscript is very poor on the research methodology. The experimental set up could not clearly demonstrated the effect of burning of crop residue and soil drowned on the population of Thiobacillus spp., and Trichoderma spp. <ol style="list-style-type: none">1. Site description (type of soil) and the history of burning and soil drowned2. Sample collection (number of sampling site), and how was the sample treated3. Enumeration of Trichoderma spp and Thiobacillus (identification)4. Pot experiment is not clear (what is the objective) and how was the experiment conducted	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
