

## Review Form 1.6

|                          |   |
|--------------------------|---|
| Journal Name:            | <a href="#">Asian Journal of Advances in Agricultural Research</a>                  |
| Manuscript Number:       | Ms_AJAAR_90580  |
| Title of the Manuscript: | Effect of alkaloids extracted from local lupine plant on growth and yield in pepper |
| Type of the Article      | Original Research Article   |

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajaar.com/index.php/AJAAR/editorial-policy> )

### PART 1: Review Comments

|                                     | Reviewer's comment  | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|---|
| <b>Compulsory</b> REVISION comments | <p><b>The research is very vital and important in plant researches. But there are some suggestions that may evaluate the article:</b></p> <ul style="list-style-type: none"> <li>- The scientific names of the referred plants must be included,</li> <li>- The article novelty should be illustrated in the abstract,</li> <li>- The abstract should present a small summary of the whole article; which should take about the introduction, materials and methods, results, discussion, and followed by a conclusion. But here, the authors only focused on the aim, experimental work, and limited results,</li> <li>- As suggestion, authors should reduce the introduction and improve the discussion,</li> <li>- The tables don't have any mention through the results, as the results must illustrate the results,</li> <li>- Statistical analysis is performed well, but they must be exhibited during the results paragraphs,</li> <li>- Please, give more discussion on the results,</li> <li>- An acknowledgement must be added after the conclusion.</li> <li>- References need to be updates at recent 5 years.</li> </ul> |   |
| <b>Minor</b> REVISION comments      | <ul style="list-style-type: none"> <li>- Some grammatical edits mentioned in the manuscript,</li> <li>- Some steps in materials and methods need references.</li> <li>- Note: if the sentence starts by a reference, the scientists' name of the reference must be written before the reference number, for example: "[31] stated that the recent global trend "aims to use natural products to preserve the environment and avoid side effects," .. It should be written as "<b>Sadiq et al. [31]</b> stated that the recent global trend "aims to use natural products to preserve the environment and avoid side effects,"</li> </ul>  |   |
| <b>Optional/General</b> comments    | <ul style="list-style-type: none"> <li>- As suggestion, authors should reduce the introduction and improve the discussion.</li> <li>- Results and discussion need rephrasing.</li> <li>- References need to be updates at recent 5 years.</li> </ul>  |   |

- add the scientist's name :[1h]Comment
- the scientist name should be :[2h]Comment added before the reference number
- add the scientist's name :[3h]Comment
- the scientist name should be :[4h]Comment added before the reference number

### PART 2:

|  | Reviewer's comment   | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
