

## Review Form 1.6

Journal Name:	<a href="#">Asian Journal of Biotechnology and Genetic Engineering</a>
Manuscript Number:	Ms_AJBGE_90472
Title of the Manuscript:	Detection and Identification of plant viruses causing severe losses in yam production in Cross River State, Nigeria.
Type of the Article	Original Research Article

### **The general guideline for the Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for the Peer Review process, reviewers are requested to visit this link:

<https://www.journalajbge.com/index.php/AJBGE/editorial-policy> )

### **PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<b>Methodology:</b> Indicate the age or stage of the leaf (if possible) used or collected for the sampling of the virus. How the leaf sample was preserved prior to virus extraction? Please specify the number of symptoms per sampled leaf. It is meaningful if the picture of infected leaves is incorporated into the manuscripts. Such information will give extra information for the reader to differentiate the symptoms that occurred by those two viruses on the yam leaf. <b>Results:</b> I would presume the sequence of the virus nucleotides are registered in the GenBank and included in the manuscript for reference to readers <b>What is the frequency of the virus's infestation for each yam variety? This will reflect the title of the manuscript</b>	
<b>Minor</b> REVISION comments	<b>Minor modification on the format for the virus nomenclature. italic all virus names in the body text. Write the full name of the virus in the legend for Figures or Tables</b>	
<b>Optional/General</b> comments	The manuscript is well written and scientifically sound	

### **PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
