

Review Form 1.6

Journal Name:	Asian Journal of Biochemistry, Genetics and Molecular Biology
Manuscript Number:	Ms_AJBGMB_90200
Title of the Manuscript:	Protein Biomarkers in Autistic Children: A review
Type of the Article	Review Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

4

(<https://www.journalajbgmb.com/index.php/AJBGMB/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The manuscript presents a good introduction, the methods section is well described, however, it does not present the results section. I would like to know about the search strategy, how many articles were found in total, how many were discarded, and why they were, I also think it is necessary to include the number of articles selected to be included in the review. The conclusion of the manuscript does not say whether the research objective was achieved. I believe that this manuscript, because of its importance, deserves a better-written conclusion.	
Minor REVISION comments	Put the figure in the format indicated by the journal	
Optional/General comments	organize the table, as well as its legend, for greater fluidity in reading	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
