Manuscript Number:	Ms_AJCRS_90348
Title of the Manuscript:	Post-operative complications of the Cholecystectomy in an underweight patient : case report, review of literature & a word of caution
Type of the Article	Case study

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajcrs.com/index.php/AJCRS/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The abstract needs revision, describing the case report with the background and conclusion in a structured palatable manner. There are many grammatical errors requiring correction. There is no discussion section which is mandatory to review and compare the present case with the literature. The manuscript can be written better in the standard format of reporting case reports to better bring out the uniqueness / importance of the subject. Conclusion requires re-writing.	
<b>Minor</b> REVISION comments	The review and comparison of the case with other literature can be expressed in a table form for better understanding. The case report requires re-writing with compilation of all clinical data and expressing only the relevant findings and report.	
<b>Optional/General</b> comments	I suggest that the author revises the manuscript after going through the prescribed format for reporting of clinical cases.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
