

Editor's Comment:

It is important case study
in spite there is serious spelling issues in the text.
also i have advice to the author, it will be more clear if the author pointed by arrow or markers to the
issues in the abdominal CT image.

so
the manuscript should be accepted after minor Revision and after proofreading.

Editor's Details:

Dr. Asmaa Fathi Moustafa Hamouda
Assistant Professor, Jazan University, Saudi Arabia.
