### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journalajebea.com/index.php/AJEBA/editorial-policy>

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	There are several cases of sweeping statements that have either been explained minimally or not explained at all. Some of the sweeping statements that have citations have not been explained out in detail making the article appear to have gaps. In article writing, it is not encouraged to assume that everyone who reads the article automatically knows the subject being discussed in detail. The writer should keep this factor in mind.	
<b>Minor</b> REVISION comments	There are minor issues of structure/arrangement of the article from abstract to conclusion. I feel some of the titles have been left out however I'm not familiar with the publications structural requirements so I cannot comment much on that just to ask the writer to ensure they have complied with the Publisher's requirements	
<b>Optional/General</b> comments	The article is factual and objective. The research topic is timely and applicable to current realities.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
