<b>Compulsory</b> REVISION comments	<b>No major observation has been noticed.</b>	
<b>Minor</b> REVISION comments	The language is simple to understand and coherent. The research carryout by the author(s) on <b>WATER BALANCE ANALYSIS OF ASA LAKE AREA AND ENVIRONS, ILORIN, KWARA STATE</b> is well structure from the abstract to the references although minor error are included and need to be corrected. It has also been noticed that the writing manuscript is very short but does not impact the quality of the work. This works is a high contribution of Science especially in Africa (Saharan Africa zone) where research of computation stools of various branches for the evaluation of the evolution of limnology, water balance, Land use and Land cover... is still poorly known. The methodology is well choosing and the results and contents match with the objectives.	
<b>Optional/General</b> comments	However, There are some grammatical and vocabulary error to be corrected. Punctuation: comma should be placed at the end of the sentence after the reference(s). Abbreviations and acronyms are often defined the first time they are used within the abstract and again in the main text and then used throughout the remainder of the manuscript.  The references should be harmonized if possible the work should be illustrated with resents researches on the same domain.
