

Review Form 1.6

Journal Name:	Asian Journal of Fisheries and Aquatic Research
Manuscript Number:	Ms_AJFAR_90227
Title of the Manuscript:	Potential Use of Ipil-Ipil (<i>Leucaena leucocephala</i> Lam.) As Fish Feed Ingredient: A Minireview
Type of the Article	Minireview Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajfar.com/index.php/AJFAR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The authors present a review of the use of <i>L. leucocephala</i> as an alternative for feeding farmed fish, specifically the African catfish, <i>Clarias gariepinus</i> . The topic is interesting and well thought out, however for a minireview I think it has very few references, according to the magazine's instructions it should be between 30-60.	
Minor REVISION comments	The keywords should be narrowed down a bit, for example growth and feed are too general. In the attached manuscript, with a word corrector, various formatting errors and other things that are missing are indicated. References need to be corrected according journal style	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
