

Review Form 1.6

Journal Name:	Asian Journal of Fisheries and Aquatic Research
Manuscript Number:	Ms_AJFAR_90418
Title of the Manuscript:	The Effect of Butterfly Pea (<i>Clitoria ternatea</i>) Against Fish Pathogens:A Minireview
Type of the Article	Minireview Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajfar.com/index.php/AJFAR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This is a very useful short article. The authors should probably make it longer by introducing fish pathogens in general and then comparing Butterfly Pea with other treatments such as probiotics. The following is an excellent paper in this genre: "Mechanisms and the role of probiotic Bacillus in mitigating fish pathogens in aquaculture" by Felix K. A. Kuebutornye, Emmanuel Delwin Abarike, Yishan Lu, Vivian Hlordzi, Michael Essien Sakyi, Gyamfua Afriyie, Zhiwen Wang, Yuan Li & Cai Xia Xie, Fish Physiology and Biochemistry volume 46, pages 819–841 (2020)	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
