PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The number of panelists must be added to the research method and it is very important to add a more accurate explanation to the discussion related to the phenomena obtained in the study	
Minor REVISION comments	-	
Optional/General comments	<ol style="list-style-type: none">1. It is necessary to write clear problems related to research at the beginning of the abstract and write conclusions at the end of the paragraph in the abstract2. Write down the number of panelists used in this study3. In the discussion section, there are still very few references and comparative data4. In the discussion section, it is necessary to add an explanation related to the phenomena that occur, not only displaying research data5. The conclusion should not rewrite the values that have been written in the discussion6. References should use articles from the last 10 years	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
