

## Review Form 1.6

|                          |   |
|--------------------------|---|
| Journal Name:            | <a href="#">Asian Journal of Immunology</a>   |
| Manuscript Number:       | Ms_AJI_88927  |
| Title of the Manuscript: | HERD IMMUNITY, THE BEST WAY OUT OF SARS COV-2 PANDEMIC. PREACHING THE GOOD NEWS ABOUT COVID-19 VACCINE AND VACCINE EFFICACY |
| Type of the Article      | Original Research Article   |

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalaji.com/index.php/AJI/editorial-policy> )

### PART 1: Review Comments

|  | Reviewer's comment   | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|--|---|
| <b>Compulsory</b> REVISION comments                        |  |   |
| <b>Minor</b> REVISION comments<br>Abstract<br>Introduction | <p>1-Study type: A snowball sampling approach.<br/>           2- re-write some sentences and word.<br/>           3-introduction : review the spelling and rewrite some sentence<br/>           4-<br/>           The pandemic was declared in March 2020 (1) after it was first discovered in Wuhan, China. The first confirmed case in <a href="#">Nigeria</a> was announced on 27 February 2020, when an <a href="#">Italian</a> national in <a href="#">Lagos</a> tested positive for the virus (2,3).<br/> <b>On 9 March 2020, a second case of the virus was reported in Ewekoro, Ogun State, a Nigerian citizen who came into contact with the Italian national (4,5). The number of confirmed cases as at 13th of June, 2022 is 256,246.</b> However, there has been far less <a href="#">testing</a> for the virus in Nigeria than other countries (6). In Oyo state, 10,219 cases have been reported (7).<br/>           Several measures have been taken against the disease in order to control its transmission these include hand hygiene, physical distancing, avoidance of large gathering and the use of face mask; all these are targeted at reducing the rapid spread of the disease. In response to the pandemic, the global efforts to develop multiple vaccines to protect against COVID-19 disease have been unrivalled in the history of public health. The greatest success will rely on successful vaccination plan against the SARS-CoV-2 virus to bring an end to the epidemic. A herd immunity of the population must be achieved as this can prove greatly successful in the campaign against SARS-CoV-2 outbreak and to further</p> |   |
| <b>Optional/General</b> comments                           |  |   |

### PART 2:

|  | Reviewer's comment   | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
