General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journalajmah.com/index.php/AJMAH/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	<p>The author wants to convey good information regarding COVID-19 testing methods. In his objectives, he wished to evaluate them taking into account the quality-price and the time taken to render the results. this supposes that for each of the methods the authors should comment on it taking into account these parameters, which moreover take into account the point of view of the quality (the sensitivity and the specificity of the methods) from the point of view of the price (cost per test) and from the point of view of the time to render the results (the duration of the process until the results)</p> <p>Pity that some of this information is missing in this article. And it would be interesting to research them before it is published.</p> <p>Also, the bibliographical references are to be redone respecting the citation standards according to the various documents consulted: the DOIs are missing for certain papers, the date of consultation for the documents read on the internet....</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
