PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Update WHO information. It is necessary to refer to the quote from Kish, Leslie. 1965. "Research Sampling" Standardize writing throughout the text. Bring the tables closer to where they are referenced in the text. The table has become unnecessary as the text provides all the information in the table. Keep the text that indicates the table or delete the table. Review other similar cases in the text. In conclusion, should present a paragraph on the contributions after the paragraph of the main results. Also, include future contributions. The quality of writing in this document should improve. Authors can increase it by grammatically proofreading the entire text.	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
