PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	- The manuscript has a very relevant theme, but it needs some tweaking.	
Minor REVISION comments	- In the objective and methodology of the abstract, I suggest removing some information regarding the results. - In the keywords I suggest adding the term Ficus sycomorus. - During the introduction, a better contextualization between the use of medicinal plants, antibiotic resistance and infection by H. pylori and other microorganisms is suggested. - At the end of the introduction, I suggest adding the purpose of the study. - In the results, I suggest that explanatory paragraphs referring to the tables be added. - During the discussion, I missed comparing the results with other studies. I suggest adding. - In the references, I suggest that some of them be updated.	
Optional/General comments
