

Review Form 1.6

Journal Name:	Asian Journal of Probability and Statistics
Manuscript Number:	Ms_AJPAS_90944
Title of the Manuscript:	The risk model with a constant dividend barrier affected by a threshold value
Type of the Article	Short Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journalajpas.com/index.php/AJPAS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The significance of the study findings is not well articulated. Need to be anchored in the paper and also abstract There is need to show the proof of the continuous property of the integro-differential equations at zero. a critical analysis with a gradual example that validates the risk model making it to become more refined and to reveal the true system a developed model should be provided Specification on the developed risk model should be provided	
Minor REVISION comments	the proof of the continuous property of the integro-differential equations at zero is missing but a critical analysis with a gradual example that validates the risk model is missing Specification on the developed risk model and model parameters should be articulated well	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
