### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journalajpas.com/index.php/AJPAS/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	No	
<b>Minor</b> REVISION comments	No	
<b>Optional/General</b> comments	<p>The first two references of the work refer to unpublished works.</p> <p>It gives the impression that it is a work related to an extremely specific topic, but it is not. The subject is very interesting and an excellent bibliography is appreciated.</p> <p>I think that a slightly broader description should be added in the first paragraph (but not much), where the author explains more about the background and the objectives of his work.</p> <p>For the rest, I find it a very interesting article and the results are very well explained.</p>	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
