Type of the Article	Short Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajpr.com/index.php/AJPR/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<b>This manuscript is well written and points out a very critical problem. The aim of the manuscript is reached and explained with sufficient data .</b>	
<b>Minor</b> REVISION comments	My personal opinion is that the author must give more evidence to the lack of tests, no test regarding the proteic level values and albumine value is indicated especially in patients presenting ascities, authors must explain why? Has the test been done? No follow up at distance of patients treated is indicated. Is it because there is none performed?	
<b>Optional/General</b> comments	Indeed this is a study of patients coming only in one Hospital pediatric unit, but this unit treats patients from a population zone of more than 1 million people. This aspect should be speculated by author.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, kindly please write down the ethical issues here in details)</i>
