PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|---|
| Compulsory REVISION comments | <p>First of all, I would like to congratulate the authors so far for their excellent work, here are some observations and suggestions:</p> <ul style="list-style-type: none"> - Please improve the Abstract of this work, be more emphatic, that is, address more objectively the focus of this work for the World Scientific Community; - Please enter objective keywords, and preferably 5 keywords, please review; - Insert more References in the Introduction of this work, highlighting the problem of this work. Furthermore, the purpose of this research is highlighted in the last paragraph of the introduction; - Explain better the Methodology of this work, put more details. - The Conclusion of this work is very succinct, describe more and better point out the benefits of this research for the world scientific community; - I suggest inserting, right after the conclusion of this work, another topic named Future Works, showing future works that will be addressed and intended after this research. This is extremely relevant, as evidence that the research has not ended, will continue; - I suggest inserting more References, preferably with a high impact factor, current (2017-2022), and preferably references from the Journal in which the article will be published, in the case of the Asian Journal of Research in Computer Science. | |
