PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	TITLE: Better titled: Comorbidities in patients with Urolithiasis in KFHU METHODOLOGY: The author already knew the patients with Chronic diseases before he set out to conduct his study. The study population should be all patients who were managed for urolithiasis during the period of study. Then, the author would analyze the patients who had comorbidities among them. This would not give a true picture of the patients Details such as variables, materials etc should be recast. RESULTS: Absolute numbers should be quoted before per cent. CONCLUSION: Conclusion is too superficial There are many grammatical errors in the manuscript. Oher comments are inset in the manuscript	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
