PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Abstract: needs introduction section. The study design is a cross-sectional study. What are the study results and conclusions? Introduction: needs references, not found. Concentrate on the negative effects of drug abuse to clarify the significance of this study. No need to Statement the problem, add it to the introduction or omit it. Significance of the Research also no need, add it to the introduction and rewrite it. Review of the literature--- Same note. Methodology - Some of the sources of data are not valid such as newspapers. - Please, determine the sample size precisely. - Write more about the study location. - Study population is not clear. - Be precise about the criteria, to achieve the aims of the study. - Write all details about the Questionnaire survey. - Two case studies are not enough to describe the study problem. - Prove the classes and the levels of scio-economical stations of families. - The results do not achieve the study aims, please, redo it.</p>	
Minor REVISION comments		
Optional/General comments
