### **PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The ideas underlying this article are pregnant with possibility. Unfortunately, they are not very thoroughly processed. The article still needs a lot of work in order to approach being of publishable standard. That is in terms of argument, bibliography, quality of English, and so on. I can only encourage the author to spend time considering the possible full force of the thoughts that are beginning to germinate in his mind, so as to bring them to fruition, probably while engaging further reading, with reference to the wider literature.	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments
