PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|--|---|
| Compulsory REVISION comments | <p>For the title: undiagnosed suppose non-unrepaired</p> <p>The place of the cardiac auscultation??? Cyanotic status</p> <p>The sentence: "Sometimes, it presents with left-to-right shunts and pulmonary hypertension (PHT)" is false, the presence of a left-to-right shunt and pulmonary hypertension in this context leads to discuss other congenital complex heart diseases not regular or irregular TOF.</p> <p>The sentence: Complications in pregnancy are associated with severe pulmonary hypertension, left ventricular dysfunction and severe pulmonic regurgitation with right ventricular dysfunction.4-6: You have to precise that this kind of complications occurred mainly in patients with repaired TOF</p> <p>You have to make a clear difference between the complications in non-repaired TOF like in your case and complications in the case of repaired TOF in the text.</p> <p>You have to explain why the diagnosis had not done in the previous pregnancy</p> <p>The ECG: it is not the ECG of a TOF patient, you must explain why there is no right ventricular hypertrophy at the ECG.</p> <p>You must add the pulmonary stenosis in the echocardiography description (it is mandatory).</p> <p>It is a case of Irregular TOF due to the presence of the left ventricular hypertrophy</p> | |
| Minor REVISION comments | If available, you can add echocardiography pics | |
| Optional/General comments | | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|--|--|---|
| Are there ethical issues in this manuscript? | <i>(If yes, Kindly please write down the ethical issues here in details)</i> | |
