

Journal Name:	Asian Research Journal of Mathematics
Manuscript Number:	Ms_ARJOM_90303
Title of the Manuscript:	On some generalized number theoretic functions and Ighachanea-Akkouchia Holder's inequalities
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalarjom.com/index.php/ARJOM/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	In this paper the authors have obtained new refinements of Holder's inequalities using binomial coefficients. The results obtained are more generalized. The proofs seem to be correct. This paper can be accepted for publication.	
Minor REVISION comments	Avoid to write "And then" in line 4 of abstract. And then , based on the results of Ighachanea and Akkouchia, Holder's inequalities for the derived generalized functions are established.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
